El present document neix amb la voluntat de ser un pas endavant en la necessària revolta democràtica que actualment necessitem a casa nostra.

Aquest document recull un codi de pràctiques i accions concretes que les persones que ocupin càrrecs electes i de lliure designació hauran de complir per assegurar una gestió política compromesa i propera a la ciutadania, amb mecanismes eficaços de transparència en el finançament i rendició de comptes democràtics i populars, i amb espais reals de participació i decisió de la ciutadania en els afers públics.

També es plantegen diversos compromisos i mesures que tenen com a objectiu garantir que tothom pugui dedicar el temps necessari a la gestió política i a les funcions públiques i, alhora, acabar amb els privilegis dels quals, durant molts anys, han gaudit bona part de la classe política, provocant un greu allunyament vers els interessos de la ciutadania.
