

Decentralised Citizens Engagement Technologies

The Icelandic Pilot

Róbert Bjarnason, Citizens Foundation & IMMI

Three overlapping light blue circles of varying sizes, with a small line extending from the bottom of the largest circle.

Citizens Foundation Vision

Citizens must have a strong voice in policymaking with
formal and persistent participation in the
political process

**YOUR
PRIORITIES**

**CITIZENS
FOUNDATION**

We use Your Priorities

- Open source eDemocracy software
- **Allow large groups to speak with one voice and organise with ideas**
- Help citizens have real influence

How does it work?

- Citizens add ideas and points for and against
- The best ideas are chosen by the participants
- **All ideas and best points for and against them are visible at a glance**

Να φορολογηθεί η Εκκλησία όπως φορολογούμαστε κι εμείς

Αν Ορθοδοξία και Ελλάδα είναι ταυτόσημες έννοιες, όπως ακούμε τόσο συχνά, τότε ας σώσει για μια φορά η Ορθοδοξία την Ελλάδα. Γιατί από τα χρόνια της Εικονομαχίας και του Βυζαντίου ακόμα, της έχει κάνει αρκετό κακό. Της χρωστάει. Δε χρειάζεται να χαρίσει τίποτα η Εκκλησία στο Κράτος. Απλώς χρειάζεται να φορολογηθεί ανάλογα με την (τεράστια) περιουσία της.

Χρειάζεται πραγματικά ο Θεός τόση περιουσία ?

Αν Ορθοδοξία και Ελλάδα είναι ταυτόσημες έννοιες, όπως ακούμε τόσο συχνά, τότε ας σώσει για μια φορά η Ορθοδοξία την Ελλάδα

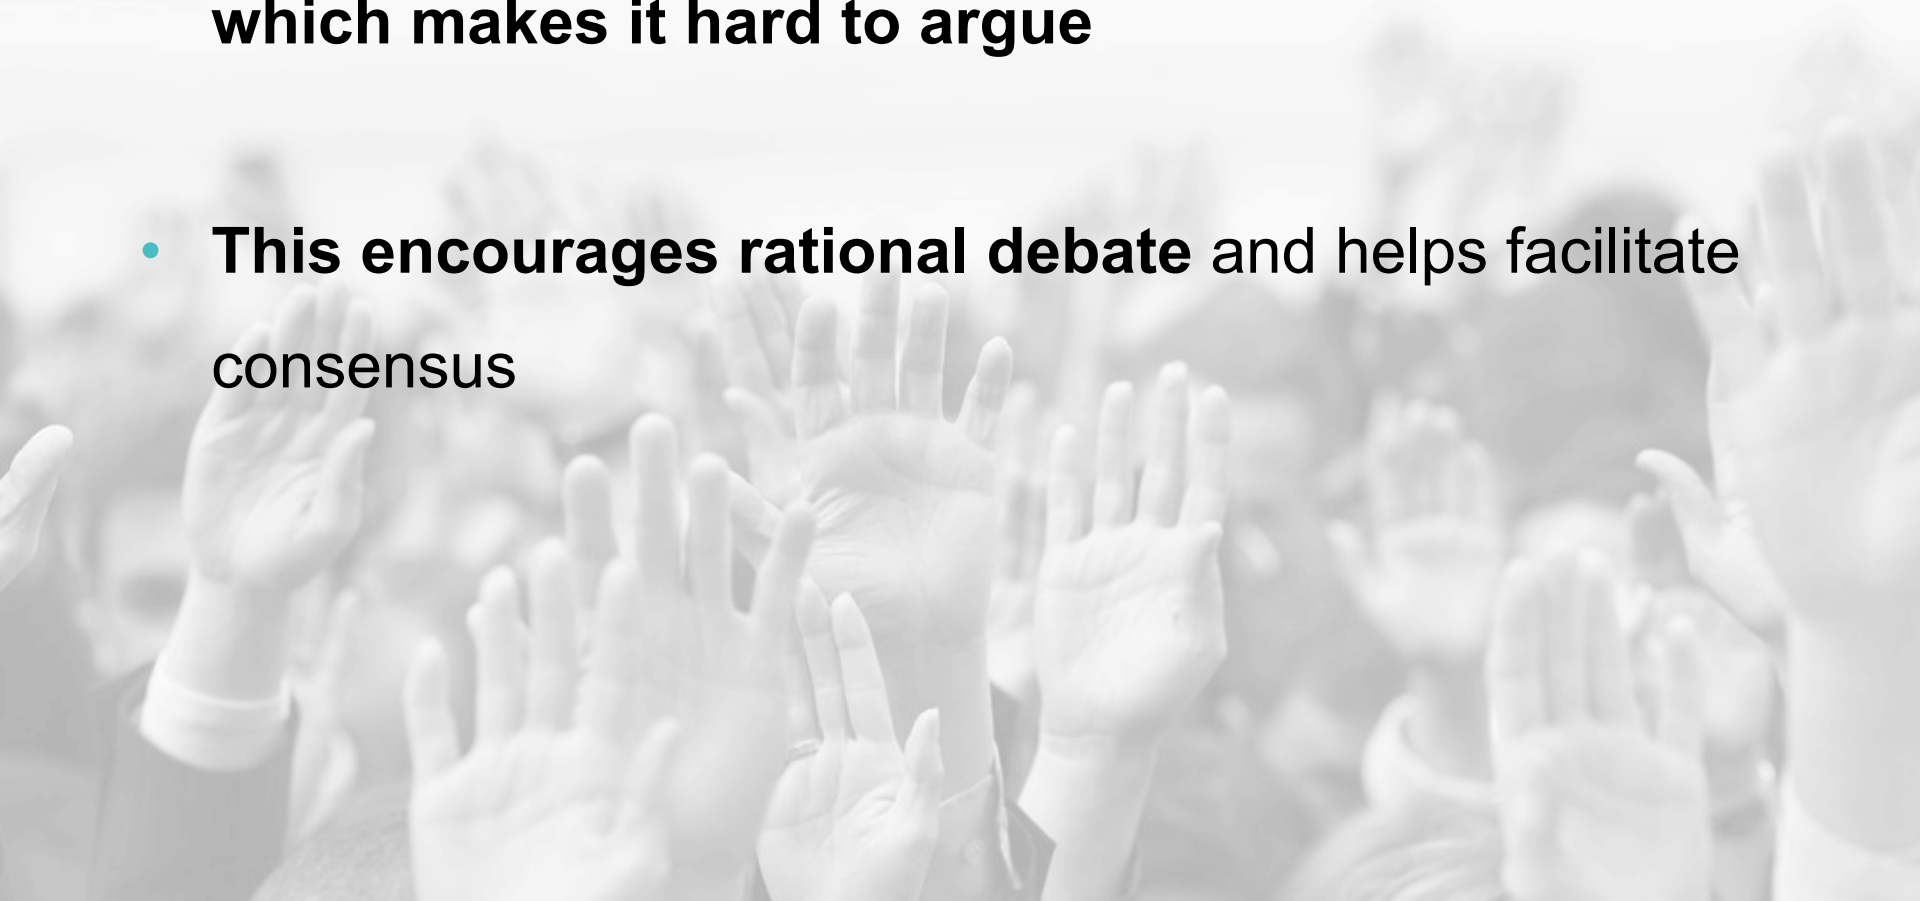

Φορολογία μόνο για όσους κερδίζουν

Αν η εκκλησία φορολογηθεί για την τεράστια ακίνητη περιουσία της, πρέπει και να την αξιοποιήσει για να έχει κέρδος από αυτήν. Είναι αυτός ο ρόλος της εκκλησίας. Αυτό

Don't argue, debate!

- **Points for and against are in different columns which makes it hard to argue**
- **This encourages rational debate and helps facilitate consensus**

Допълнителни ограничения

1. Предлагам да се ограничи кандидатите да имат адресна регистрация в съответния мандатен район от които е издигнат.

2. Издигането да става след събиране на подписи от хора с адресна регистрация в съответния мандатен район (Например 5% моля и за дискусия по темата колко точно и как ще се проверяват)

3. Право на отзоваване. По инициатива на ??% от гражданите с адресна регистрация в съответния мандатен регион. Се свиква локален референдум само в този мандатен регион.

Мажоритарната система има своите недостатъци

Мажоритарната система би създала огромни проблеми: 1. Много хора ще останат без каквото и да е представителство в Народното събрание; 2. Кандидатите ще бъдат избирани почти както при пропорционалната система, само че доминиращите партии ще имат още по-изразено предимство спрямо останалите. За справка последните избори с мажоритарен елемент и избраните в следствие на тях депутати.

3. Много по-лесно ще стане "влизането" в Народното събрание чрез купуване на гласове и др. И много други.

The possibilities are countless!

My view is Ingólfstorg not much new today outside Skateboarding use and togetherness instead of slugs. It is to remain unchanged. The options in this area are still far greater. You can enrich business, life and athletic events, eg on weekends. Examples of monthly events: Farmers market with fresh products, concerts for young and old bands,

Do this themselves

Do this themselves. - Seems Priorities turn to get city employees to do things. It is a question whether some sort of kefir is for individual citizens to organize themselves around some ideas.

Better Reykjavik / Participatory budgeting

- **Online participatory budgeting to improve the city of Reykjavik**
- Each voter has the same budget amount as the total and chooses which projects she wants to vote for
- Our e-voting software teaches citizens the realities of budgeting

All GP Patients automatically Opted Out of care.data

Change the current NHS England proposals to automatically collect data from GP patient records unless patients 'opt out'.

This is called automatically 'opted in'. The care.data project will then harvest GP data on a monthly basis and the data could be made available to private companies.

Irrespective of opt-out vs opt-in, consent must be informed

Much clearer explanation of the benefits, and risks of the sharing of their data. Much more detail on when and how and why it will be shared, and the right to opt out again.

We should give consent to our data being collected

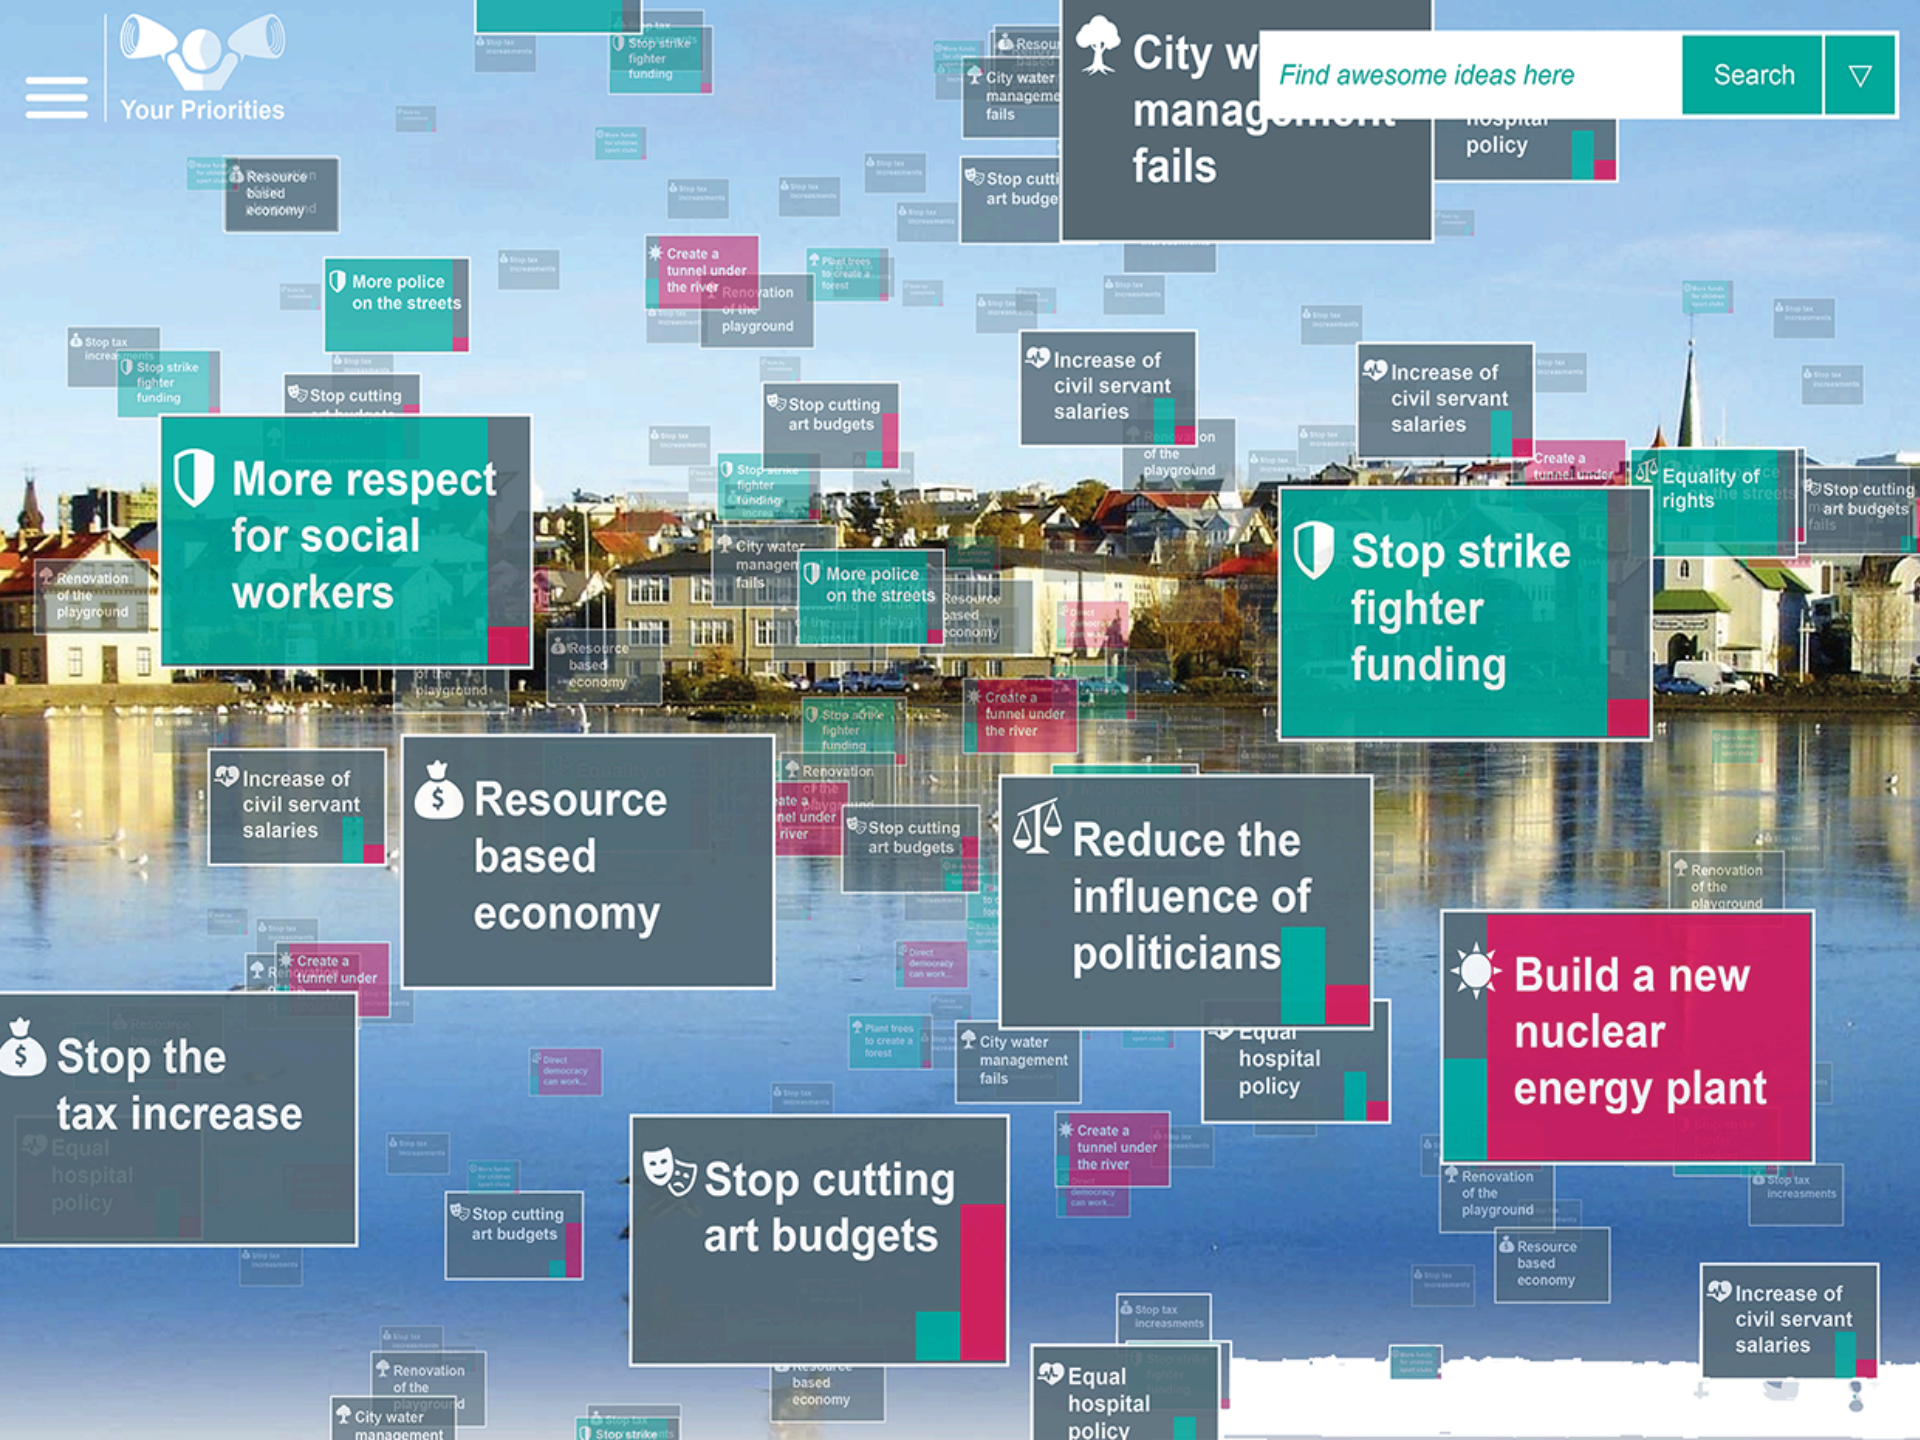

A basic principle of medical ethics is 'informed consent'. This means patients should always be aware of what is happening to them and their

We need data to improve healthcare now & in future

Totally agree about informed consent - but that is for medical procedures. What we are talking about here is the opportunity to improve lives now and in the future via the use of data. Speaking purely personally, I have absolutely no problem with my anonymised data being used for these purposes. In fact I would be pretty furious if it wasn't. If you have an opt-in scheme the majority won't bother and then the data will be useless. I do agree that there needs to be better public info though.
